

REP. KEVIN HERN BUDGET & SPENDING TASK FORCE

Our goal: Prevent a debt crisis, ensure survival of critical entitlement programs, fulfill Constitutional obligation to defend the country.

Joe Biden's lack of leadership has driven our country to the worst inflation in 40 years and the highest gas prices in history. With no budget and no accountability for their spending, Democrats in Congress are spending taxpayer dollars as fast as they can.

Americans are looking to Republicans for fiscal responsibility and accountability. The Republican Study Committee budget provides that and more. We have heard the demands of the American people and will use our Majority to implement common-sense, conservative policies to save America from a debt disaster.
