To create a task force within the Department of Education to address the threat of foreign government influence and threats to academic research integrity on college campuses, and for other purposes.

\_\_\_\_\_  
IN THE HOUSE OF REPRESENTATIVES

Mr. BANKS introduced the following bill; which was referred to the Committee  
on \_\_\_\_\_

\_\_\_\_\_  
**A BILL**

To create a task force within the Department of Education to address the threat of foreign government influence and threats to academic research integrity on college campuses, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Protect Our Univer-  
5 sities Act of 2019”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

1           (1) Adversaries of the United States take ad-  
2           vantage of a largely vulnerable academic system.  
3           Academia is a place of uniquely free thought; how-  
4           ever, adversaries take advantage of access to feder-  
5           ally funded sensitive research that takes place on the  
6           campuses of institutions of higher education.

7           (2) As stated in a 2018 report by the White  
8           House Office of Trade and Manufacturing Policy,  
9           “More than 300,000 Chinese nationals annually at-  
10          tend U.S. universities or find employment at U.S.  
11          national laboratories, innovation centers, incubators,  
12          and think tanks. Chinese nationals now account for  
13          approximately one third of foreign university and  
14          college students in the United States and about 25  
15          percent of graduate students specializing in science,  
16          technology, engineering, or math (STEM).”.

17          (3) International students from nations that are  
18          adversarial to the United States could face undue  
19          pressure or incentives to divulge technology to their  
20          home nation or to use sensitive information to nega-  
21          tively impact the United States. According to the  
22          same 2018 White House Report, “The national and  
23          economic security risks are that the Chinese State  
24          may seek to manipulate or pressure even unwitting  
25          or unwilling Chinese nationals into becoming non-

1 traditional information collectors that serve Beijing’s  
2 military and strategic ambitions.”.

3 (4) Technology and information that could be  
4 deemed sensitive to the national security interests of  
5 the United States should be given increased scrutiny  
6 to determine if access should be restricted in a re-  
7 search environment.

8 (5) An open federally funded research environ-  
9 ment exposes the United States to the possibility of  
10 exchanging research affiliated with current or future  
11 critical military technological systems.

12 (6) In Federal Bureau of Investigation (FBI)  
13 Director Wray’s view, Chinese non-traditional intel-  
14 ligence collectors “are exploiting the very open re-  
15 search and development environment that we have,  
16 which we all revere. But they’re taking advantage of  
17 it, so one of the things we’re trying to do is view the  
18 China threat as not just the whole-of-government  
19 threat, but a whole-of-society threat on their end,  
20 and I think it’s going to take a whole-of-society re-  
21 sponse by us.”.

22 (7) As stated in the January 2018 China’s  
23 Technology Transfer Strategy report by the Defense  
24 Innovation Unit, “Academia is an opportune envi-  
25 ronment for learning about science and technology

1 since the cultural values of U.S. educational institu-  
2 tions reflect an open and free exchange of ideas. As  
3 a result, Chinese science and engineering students  
4 frequently master technologies that later become  
5 critical to key military systems, amounting over time  
6 to unintentional violations of U.S. export control  
7 laws.”.

8 **SEC. 3. TASK FORCE.**
